Hello, I'm Sunil Neupane, I'm currently pursuing Bachelor's in Computer Science And Information Technology (BSC.CSIT) at Tribhuvan University-affiliated Bhairahawa Multiple Campus ,Bhairahawa-Nepal. As a frontend developer, I specialize in building scalable, user-friendly web applications with a keen eye for clean code and intuitive design. I'm passionate about crafting engaging user experiences and staying up-to-date with the latest technologies to deliver innovative solutions. With strong problem-solving skills and a commitment to quality, I focus on achieving outstanding results that exceed client expectations.

BungoUS - Digital Product Marketplace

BungoUS is an affordable digital product marketplace offering website source codes, mobile app source codes, and eBooks related to development and technology. Built using Next.js, Tailwind CSS, and React, the site features a user-friendly design that allows developers and students to easily purchase high-quality products. With secure payment integration, BungoUS provides ready-to-use resources to help developers enhance their coding skills and accelerate project development.

Shopping App UI

I design and develop app interfaces with a seamless user experience. From the captivating homepage to detailed item pages, I ensure a smooth journey for users. The intuitive cart page simplifies the checkout process. Implementing a streamlined 'add to cart' function, I prioritize user convenience, making your app a joy to navigate.
